

ALEXIS JONO TAN

Suwanee, Georgia • 470-655-8789 • alexisjonotan@gmail.com

OBJECTIVE

Highly motivated computer science undergraduate student with a strong work ethic and creative ability. Interested in math, engineering, programming, and art.

EDUCATION

GEORGIA INSTITUTE OF TECHNOLOGY

Atlanta, Georgia

Dual Enrollment

Aug 2024 - Present

- Current Grade: A
- Relevant Courses: Linear Algebra, Multivariable Calculus, Combinatorics, Differential Equations, Introduction to Computing with Python, Object-Oriented Programming with Java

GWINNETT SCHOOL OF MATHEMATICS, SCIENCE, AND TECHNOLOGY

Atlanta, Georgia

Class of 2026 | GPA: 4.42 | PSAT: 1520/1520 | SAT: 1560/1600

Aug 2022 - May 2026

- Activities: Math Team (Content Head), Computer Science Club, Mu Alpha Theta, National Honors Society
- Relevant Courses: AP Microeconomics, AP Calculus BC, AP Physics C: E&M, AP Research, AP Seminar
- Awards: National Merit Finalist (2025), American Invitational Mathematics Exam (AIME) Qualifier (2025), Georgia Junior Science & Humanities Symposium Presenter (2025), Governor's Honors Program Mathematics Finalist (2024), The President's Volunteer Service Award, Gold and Silver (2022/2023)

EXPERIENCE

VALENT ASSET MANAGEMENT

New York, NY

Quantitative Analyst Intern, Metals

Jun 2025 - Present

- Senior Capstone Experience at a commodities hedge fund working on metals strategies under the mentorship of a quantitative researcher; covered base, precious, minor metals
- Implemented statistical methods, regressions, and time-series techniques on alternative datasets and Bloomberg price data to generate trading signals with success rates over 80% and average PnL of 5-10% per signal
- Developed trading and backtesting programs to compare performance of various strategies and optimize portfolio returns
- Analyzed and summarized reports from major research providers such as Goldman Sachs, Macquarie, BMO, and Bloomberg on topics related to commodities investing, green energy, and macroeconomic outlook

GWINNETT SCHOOL OF MATHEMATICS, SCIENCE, AND TECHNOLOGY

Atlanta, Georgia

AP Research Project

Aug 2024 - May 2025

- Evaluating Carotid Intima-Media Thickness using Machine Learning
- One of top 50 research projects in Georgia chosen for presentation at Georgia Junior Science & Humanities Symposium
- Developed machine learning and deep learning models to measure carotid intima-media thickness from ultrasound scans
- Built neural network and transfer learning pipelines achieving 90%+ accuracy
- Created an open-sourced dataset of 2,000+ labeled ultrasound scans for segmentation tasks

PATHWAY TO PI

Atlanta, Georgia

Co-Founder / Tutor

Jan 2024 - Present

- Helped develop a free one-on-one math tutoring program to support students in our community
- Tutored middle and high school students 1-on-1 in math and SAT prep
- Deployed website and developed curriculum lessons for students to practice and improve

SKA ACADEMY OF ART AND DESIGN

Atlanta, Georgia

Secretary, National Arts Honors Society

Aug 2022 - May 2024

- Volunteered over 200 hours of community service
- Coordinated several volunteering events including Adopt-A-Road and Duluth Lantern Festival
- Partnered with TWC Foundation for monthly Food Fundraising and Packing event

SKILLS

Software: Python (pandas, numpy, sklearn, matplotlib, jupyter), C++, Java, HTML, CSS, Git, LaTeX, Windows, Linux
Data: Data Analytics & Visualization, Machine Learning, Time Series Analysis, Model Evaluation

HONORS/AWARDS

- National Merit Finalist *Oct 2025*
- American Invitational Mathematics Exam (AIME) Qualifier *Feb 2025*
- Georgia Junior Science & Humanities Symposium Presenter *Feb 2025*
- Governor's Honors Program Finalist, Mathematics *Jun 2024*
- The President's Volunteer Service Award, Gold and Silver *2022/2023*
